

① 滾筒式噴洗機

SHOT TUMBLAST MODEL “STB-IC”

本機械廣泛適用於鑄鐵、鑄鋼，非鐵金屬等小型鑄件，鍛造品等之表面去砂去銹、噴靱(shot peening) 去除鐵件毛邊(Burrs)。構造簡單、操作容易，清掃效果特高，可使我們減半清掃成本、同時清掃後的表面清潔美觀。

This machine is the tumbler type shot blast, it is used for the clearing and removing sand, scale, burrs from small casting of common casting iron, casting steel, non-metallurgical casting, forging products, etc; shot peening and even for deburring plastic products including synthetic rubbers. This machine is constructed so simple, easy operated and small installation space, therefore we can get various feature as high cleaning ability, superiority of cleaned surface, reduction of cleaning cost by half.

■ 主要諸元 Main Specifications

型 式 Model		STB-1C	STB-2C
葉 輪 Impeller (mm)		360ø x 62	360ø x 62
馬 達 Electric Motor (kw)		3.7 x 4P	5.5 x 4P
製品容量 Capacity of Work	容量Capacity(Max)	0.1 m ³	0.25 m ³
	重量Weight (Max)	150 kg	300 kg

(Approx)
